3. Read memo of subjects dealt with by Mr. A. S. Nagavkar, ex-Municipal President, in his deputation report, on which the opinion of the Council is required.

The opinion of the Council is recorded against each suggestion as follows :—

SUGGESTION.	RESOLUTION.
I.—Para 5 of Mr. Nagavkar's report.	
(1) The desirability of forming several Committees among the Municipal Councillors in connection with various items of Municipal Administration, such as (1) Sanitation, (2) Public Works, (3) Education, (4) General Administration, etc., with a view to distribute the work of Municipal Administration among the Councillors so that they may take real interest in it.	The City Improvement Committee will answer the purpose for (1) and (2). There is a Committee for (3). A separate Managing Committee may be formed for purposes of General Administration under Section 27 of the Municipal Regulation.
(2) The Council appointing their own President every year.	Provision exists for this in the Municipal Regulation.
(3) The desirability of taking on the Council the District Civil Surgeon, the District Superintendent of Police and the Education Inspector.	Municipal Regulation provides for the attendance of these officers in the Council whenever required.
II.—Para 7 of the report.	
The necessity for the employment of a Surveyor in the Municipality and to get the City surveyed every five years in order to check and prevent the encroachment upon Municipal land.	It is absolutely necessary to have a Surveyor for the City to get the City surveyed once in five years.
III.—Paras 8 to 11.	
The desirability of increasing the Octroi revenue by including in the list of dutiable articles some additional articles of consumption, luxury, etc.	There is no necessity to add to the already existing list of dutiable articles.
IV.—Para 14.	
Necessity for keeping one or two fire-engines.	The necessity for a fire-engine is badly felt and one should be urgently supplied.
V.—Paras 17 to 29.	
To consider the question of having a comprehensive scheme of drainage consisting of under-ground drains suited to carry away night-soil also with sewage and sullage water, the open drains carrying away storm water.	The Sanitary Department is projecting a scheme for the drainage of the City.
VI.—Para 32.	
Necessity for the Police to co-operate with the Municipality in preventing the commission of nuisance in the streets and lanes, etc.	There is provision for this in the Police Regulation.
VII.—Para 33.	
The desirability of getting model houses built for poorer classes of people, such as mill-hands and other coolies, etc.	This suggestion may be adopted.

4. Read Government Proceedings No. 6044-54—Mi. 177-09-6, dated the 20th January 1910, directing the recovery of house and other taxes in two equal instalments in advance in Municipalities governed by Regulation No. VII of 1906.

Resolution.—The house and other taxes may be recovered in two equal instalments within the 30th June and the 31st December of each year, *but not in advance*, as such a system would work as a hardship, especially in the case of the poor.

5. Read General and Revenue Secretary's letter No. 4962—Mi. 352-09-5, dated the 9th December 1909, forwarding copy of the Sanitary Commissioner's letter No. 2105, dated the 17th November 1909 to raise the level of the land to the west of the Sydney Road, for consideration along with the question of deepening the Sampige tank in the City.
